Chapel School 2020-2024

### Soft Skills

- **Communication:** Clearly articulating ideas and collaborating effectively with team members, both in writing and verbally, to ensure smooth project execution
- **Adaptability:** Quickly learning new tools and technologies, and adjusting to changes in the work environment, which is especially important in the fast-paced tech industry.
- **Teamwork:** Working well within diverse groups, contributing to collective goals, and being supportive of others' efforts to create a productive and positive work environment.
- **Problem-Solving:** Approaching challenges with a logical mindset, identifying issues, and proposing creative solutions to improve processes or overcome obstacles.
- **Cultural Awareness:** Being sensitive to and respectful of diverse backgrounds and perspectives, which is important in global and multicultural teams.
- **Curiosity:** A strong desire to learn and explore new ideas, technologies, or ways of working, which drives continuous growth and improvement.
